PROJECTS

Food Delivery Web Application   **Cryptech IT Solutions, Jabalpur May 2024 – Jun 2024**
- Developed an intuitive food delivery platform using HTML, CSS, JavaScript, and React.
- Improved user experience and efficiency by integrating responsive design elements and ensuring cross-browser compatibility.

Task Manager Web Application
- Developed a task management web application using Angular, enabling users to create, categorize, and manage tasks.
- Implemented features such as user authentication, task filtering/sorting, and due date notifications.
- Integrated REST API for backend services to manage user data and tasks, ensuring real-time updates.
- Utilized Angular Material for a responsive and modern UI, supporting both desktop and mobile views.
- Achieved high user engagement through intuitive UI/UX design and efficient performance.

Web Scraper Tool
- Developed a Python-based application to automatically extract data from websites using web scraping techniques.
- Parsed HTML content and retrieved product details, prices, and other relevant information for analysis and reporting.
